Improvement Center

EIIC Updates

Trauma: Best Practice Imaging Guidelines

Objective

- Reduce advanced imaging in pediatric trauma patients (“When Not to Scan”)
 - Reduce need for whole-body CT scan prior to transfer
 - Who needs a scan to go home?
 - Recommendations by body region (head, c-spine, thorax, etc.)

Next steps

- Finalize guidelines and resources for each body region
- Create proof-of-concept (e.g., laminated cards) by May/June 2022
- Work with EIIC Knowledge Management/Communication Domains to develop and disseminate materials in Year 3
